more and Washington the Other Winners. Weak batting, poor fielding and ineffective pitching by the overworked Rusie were the reasons for the New York's fourth straight defeat yesterday, the Chicagos outplaying them at every point. The Brooklyns were also easily disposed of by the Clevelands, who are still tied with the Bostons for second place. The Beanenters won again from the Cincinnatis and greatly reduced the Reds' lead, Baltimore's victory over the Louisvilles not only widened the breach between Hanlon's men and the New Yorks, but also drove the Kentuckians into last place. St. Louis, for the second time, triumphed at Philadelphia, and, as the Washingtons won from Pittsburg. Hurst's team and the Senators are on even terms for tenth notch. The results: Chicago, 9; New York, 1.

base, and Dahlen made the sixth run of the inning. Connor was third out on a grounder to Davis.

After Donahue had filed out in the sixth, Callahan began another bombardment with a blashing single to right. Ryan brought him in with a corking two-bagger to the same place, and scored himself on Everitt's safe smash to left. The latter was forced on Isbell's heavy drive to Davis, and Dahlen's liner to left put Isbell on third, the Chic. go cantain stealing second unmolested. Davis gathered in McCormick's bid for a hit, and the runners were left.

The local managers then realized their mistake of putting Rusie into the box, and straightway substituted Gettig, who, it would seem, should have pitched from the beginning. The Chicagos could do nothing with him in the saventh, while in the last half the New Yorks were retired on five pitched balls. Joyce and Gleason went out on two, of, them, Warner hit the third for a single, and McCreery, after hitting a foul into the grand stand, sent a grounder to Connor for the bird out.

In the eighth the Windy City players made their last run. Callahan sent a safe shot to centre and reached second on Ryan's out at first, as Davis and Gleason did not attempt to cover their bag for a force. Everitt doubled to left, and the fleet-footed pitcher went home, labell filed to Tlernan, who made a pretty running oatch, and Dahlen hit to Hartman, who year servitt dowr at second. As the New Yorks, for a change, had taken their first turn at the bat, the Chicagos were not compelled to play the last; half of the ninth. The score:

Philadol.Phia, June 8.—Nent Hanlon was in town to-day and had a long conference with Tim Hurst. The result was that the St. Louis and Haltimore citibs consummated a deal whereby Steine) and Quinn go to Bt. Louis in exchange for Hotmes and a cash consideration, the amount of which both managers refuse to divide. Hurst thinks Quinn is a better man at accord than Crooks and will play film on that bag. This seaves him with two utility indelders, Hall and Crooks, but he has not yet decided which me to let go. Steined will be used in the outfield, which means the release of Harley or Turner, probably the latter. Battimore's object in the deal is purely financial, she dealing to get in some money and at the same time reduce expenses.

Jordan.

The approaching match between George Dixon and Ben Jordan is agitating the sports hereabouts no little. This will be the first international contest Dixon has engaged in since he defeated Fred Johnson at Coney Island on June 27, 1892. Yesterlay Jordan's manager deposited \$500 with Al Smith to Insury Jordan's presence in the ring and also that he will be to wight. Tom O'Rourks on behalf of Dixon placed a like sum in Smith's hands.

Furnishes a Surprise in the Second Bace at Gravesend-Kinnikinic, Fermere, Becanter and Sir Vassar the Other Wissers. The noted colt Hamburg regained some of his lost prestige yesterday when he won the Spring Special at Gravesend in style which indi-cated a return to his invincible two-year-old form. His only opponents were Sly Fox and Handball, and the trio would have met at even weights if Sims had not to declare three pounds over to ride Charley Dwyer's popular breadstart, while Hamburg proved to be as quick on started an odds-on favorite at 15 to 20, but if

he hadn't been beaten so badly in the Belmont Stakes at Morris Park it is doubtful whether any bookmaker would have the nerve to mark up any price against him. Many of the regulars remained loyal to Sly Fox and backed him from 8 to 5 down to 6 to 5, while Handball was allowed to run loose at 40 to 1. Hamburg broke in front at an awful clip, with Handball next and Sly Fox so slow to get in motion that the start looked ragged to the

uninitiated. The speedy son of Hanover was never headed afterward. He made all his own running under wraps and won as he pleased by eight lengths. Handball led Siy Fox by four lengths around the first turn and down the backstretch, but the second choice then closed the bend for home. His task was hopeless, howengths; to the good. There was not even a emblance of a race for second place, Sly Fox being too good for Handball. Hamburg, under a comfortable wrap all the way, went the route

The full time only equals that made by Mirthful on June 2, and is a second slower than Sly fox showed with 111 pounds up on May 30 over the same course. Still, the performance stands out in bold relief as an achievement which will be carefully remembered every time Hamburg goes to the post henceforth. It could only have been accomplished by a stake horse of the highest class, and those who thought a few weeks ago that the Copper King had purchased a "gold brick" have now changed their minds.

The other special event on the card was the Rensington Hurdle Handicap, and five good timber toppers turned out for the trying trip of one mile and three-quarters, over seven hurdles, on the main track. The top weight, Sir Vassar, Twas an 'even-money favorite, with Forget and Capt. Piersull almost could be east considerably. In one of his crasy breaks he threw Hyrnes and the lockey could not remount until he disguised his colors by putting on his coat. The erratic gelding was finally got in motion within hailing distance of his field, and the flag dropped. Capt. Piersull showed the way for half the journey, but the favorite was always handy and when he moved up the race was over. He drew away without much effort and won galloping by ten lengths. Forget challenged Capt. Piersuli in the run home, and the latter had to be ridden out to take the place by a meck.

The talents started in on velvet by picking

lenged Capt. Piersall in the run home, and the latter had to be ridden out to take the place by a neck.

The talent started in on velvet by picking Rinnikinio to win the heavy handicap. Lambent and Hanwell led him to the last furlong, where he made his bid and won in a mild drive by a head. W. C. Daly's Rusher ruled favorite in the second race, but Marcus Daly's stable had a rod in pickle and sprung Croker, a good-looking bay coit by Tanmanny. Armament showed the way to the free field with Rusher at his withers. Dr. Parker was also a contender, but in the final scramble Taral rushed Croker through and got the best of, a head-and-head finish between the leading four.

Sloan broke the lee on Hamburg and followed his hand by a clever win on the Western two-year-old Formero. Marcus Daly's Uam Var, ridden by Maher, made a strong bid for this race, but Formero ralloped him into the ground in the stretch and then stalled off the challenge of the favorite, Mr. Phinizy. The latter got off badly or he might have been closer than two lengths at the finish. Decanter was played down to even money to win the fifth race and he brought off the trick in good style by two lengths after a mild brush with Rappahsmock. The five starters made a lot of trouble at the post and Fickering, on the outsider. Ein, broke the webbing of the gate. This cost him \$25 and similar fines were afterward imposed on Maher. O'Connor and Hewett. They were finally sent away in good order without the lining-up machine. The summaries:

ORISIS IN THE DRIVING OLUR. President, Secretary, and Majority of the Hr

of the Driving Club was reached on Tucsday night, when the President, the Secretary, and all of the members of the Executive Committee who were present resigned in a body at the close of a business meeting in the Windsor Hotel. This action is understood to be the outcome of a split in the committee on the question of a location for the proposed new trotting track. Readers of THE SUN are aware that dissension arose respecting the merits of two or three proposed sites for the track soon after the sub-committee appointed by President Alfred de Cordova set out to find a location, one faction favoring the east side awamp near Baychester, while another stood for the west sid property on Jerome avenue near Dunwoodle, Sam McMillan, Capt. C. H. McDonald and Free Steinway, a majority of the sub-committee on sites, finally filed a report recommending the east side location, but the other two committeemen, James Butler and W. E. D. Stokes, did not sign the document. The price of the salt marsh property which the majority recommended was \$3,500 an acre, exclusive of the cost of grading, which was estimated at \$25,000 more. But the owners of the property subsequently offered to take \$3,000 an acre when they were called to meet the bid of George Crawford for a third location about a mile and a half east of Mount Vernon. About this time John H. Shuits and James McClenchan resigned from the committee. The resignation of James Butler, who favored the west side location, was also tendered, though not acted upon. J. W. Daiy attended none of the committee meetings, and President De Cordova was never able to obtain a quorum to consider the matter further.

A few days ago the President of the Driving Club sent out to members of the committee an ultimatum which brought together the Windsor on Tuesday night Sam McMillan, Capt. C. H. McDonald, Fred Steinway, Fred Deitz, Luke Burke and Lydell Whitebead, the latter having been elected to fill the vacancy caused by John H. Shuits's resignation. With a quorum thus obtained the committee proceeded to elect J. P. Robertson to succeed James McClenchan. President De Cordova then stated to the committee that, having been unable to bring about harmonious action in the matter of selecting a site for a track, he had decided to resign. His resignation way, Burke, and Whitehead. James Butler, Nathan Straus, J. W. Daiy, and W. E. D. Stokes did not attend the meeture. Mr. Stokes s nt word that he was ill and unable to be on hand.

Whether the resignation of a majority of the members of the Executive Committee, together with the President and the Secretary, will result in the disbanding of the club is not yet known, but a good many horsemen seem to think this is certain to follow unless ex-President James Butler and his friends stop into the breach. The Club has been without headquarters since Fl east side location, but the other two committeemen, James Butler and W. E. D. Stokes

On the St. Louis Track.

St. Louis, June S.—The weather was lovely, the track was fast, the crowd fair and the speculation brisk. This morning Louis A. Cells, bookmaker, paid \$1,50 for Harry Duke, and it is reported that after he had made the purchase he found the horse was hipped. Tom Kliey arrived here from Chicago this morning with several good borses. Summary: First lace—Six and a half furiongs.—Lauy Britannic, 105 (Meintyre), 5 to 1, won; Alva, 109 (J. News from the Borse World.

It was stated yesterday at the Gravesend track that Tod Sloan has been engaged to ride Pravious in the Brooklyn Derby, and that he may also plot the Broyer cold in the Braditation. Previous, it is claimed, does not run kindly for Sims, as was shown in his race on Tuesday.

The Fleischmann brothers are apparently as good patriots as they are horsenien. Earliest Tamps with a cavalry regiment, and as he exicets an early order to the front, Baother Julius has gone flown to see him off. Meanwhile both boys keep in touch with the racing game by wire.

The Morris brothers have presented a handsome loving cup to Trainer Wyndham Walden in recognition of his good work with their string, and especially with Bowling Brook, the winner of the Morropolitan Handleap and Beimont Stakes. The cup was on view at Gravesend yesterday, and was greatly admired.

Warren Lewis, it is said, has decided to quit the Greater New York A. C. of Coney Island, and will be succeeded as matchmaker by Billy Braly. Jim Kennedy was also approached regarding taking hold of the club, but he was compelled to remainer the control of the fact that he has other matters under his control which take up his emite attention. It is said that the members of the tir ater New York Club are quite allesstated over the way Lewis has managed the organization's attains, and wants change. So far, the shows held by the club have been of a very inferior nature. Saturday night is considered a very had night to hold bouts at Comey Island, and Lewis chimates think this has had a great deal to do with the poor financial results at the two bouts held by the club. The C. W. A arranged with the Dominion officials that any member who identified himself as a member of the L. A. W. should be permitted to take his wheel across the line without paying duty after the name of the owner and the name and num ber of the wheel had been recorded. The riders vere supposed on their return to furnish the Custom House officers with particulars con-cerning themselves and bicycles in order that the records mights be checked, the agreement between the C. W. A. and the Government being that all League members entering the or the C. W. A. would pay the duty. At the end of the year when the records were checked to see if all the wheels had returned through the same or another port of entry, there was each time an account to be settled by the C. W. A., owing to the carelessness of riders who crossed at odd places without reporting to the Custom House men and in a way snuggled their wheels back. While this did the riders no good is hurt the Canadian Wheelmen's Association and the Jusque. During these two years the organization in Canada has put up with all such annoyances and has had no reciprocal arrangement. When a member of the C. W. A. comes into the United States he has to deposit the full amount of duty on his wheel with Unice Sam's officials. President Potter has been at work for some time eudeavoring to make an arrangement similar to that in Canada, so that there might be true reciprocity. Yesterday Mr. Potter received from Washington a notification to the effect that his efforts had been successful, which is only just, although by some it may be construed as one contributory move made by the bicycle toward an Anglo-American alliance.

the bicycle toward an Anglo-American alliance,

Gradually the name of Jimmy Michael is disappearing from the lists of records for different distances made behind pace. Last winter, when tables were made up showing the record for from one to thirty-three miles, the name of the midget cyclist figured alongeide the great majority of them, but the record-breaking has gone on this suring while Michael has not been riding, and when he gets on the track again Jimmy-will find that he has work cut out for him if he is to regain his prestige. After the race between Livton and Titus last week the record table for fifteen miles showed Michael's name only four times. In the distances beyond that Michael holds a larger percentage of records, although he is far from holding them all. With McDuffle, Titus, Vernier, and Linton riding as they are, more records are likely to fall to their credit, and the "Welsh Rarebit" will have to come out in great form to properly look after his laurels and continue, to be a star record holder.

Those who witnessed the paced race of fif-

Those who witnessed the paced race of fif-teen miles between Linton and Titus at Spring-field last Saturday declare that it was one of the greatest bleyde races ever seen. During the last eight miles the contestants were not more than fifteen yards apart, and the victory went to Titus by barely ten yards. Such work proved that the pacemaking teams were pretty evenly matched, and it speaks well for the pros-pect of sport at the first paced race in New York, which is to be held at Berkeley Oval on Saturday, between McDuffle and Hoyt, that the same pacemaking teams will be employed.

A genuine boom has struck the cycle trade. Every one seems to be buying wheels and sales during the last week have been phenomenally large. The question of "where do the new wheels gof" is becoming as interesting as the familiar query concerning the disposition of old ones. There is a healthy tone about the dealing also, huyers know what they want and get it without shopping all over and haggling about terms, According to one retailer: "There is a good paying class of people buying, those who pay their bills promptly. This 400 and 1,700 nonsonse has gone past. They always expect to owe for what they got, anyhow. I like to deal with persons who do not feel insulted if you ask for money when you deliver the goods. The warf Fudge! It has not hurt the trade nor the sport a bit. I will wager there is not one house in ten that is not now ahead of its sales up to the same time last year." Chainless wheels are reported to be selling very well, in spite of the high price on them, and as evidence of this the fact is pointed out that more of them are seen every day on the road. A stroll through the retail and wholesale stores reveals great activity, and the reports made by those whose word can be relied upon indicate that many thousands of riders are yet to be added to the tides now moving daily on the Supreme Court had sus-The news that the Supreme Court had sus-

The news that the Supreme Court had sus-tained the right of cyclists to ride on the path alongside of Prospect Park was received with preat acclaim by wheelmen generally yester-day. Although the issue in the case was one of damages against the city, the decision will be a practical deterrent to Park Commissioner Brower, who was considering the advisability of closing the path to wheelmen, in suite of the fact that the former Park Commissioner had spent morey builting crushed stone on it in or of closing the path to wheelmen, hi suite of the fact that the former Park Commissioner had spent money putting crushed stone on it in order to make it suitable for cycling.

Commissioner Brower would certainly have closed the path to cyclers had the higher court sustained the lower in its decision that a pedestrian could in case of accident recover from the city on the groend that bicycles had no right on the path. While the decision is a gratifying one to riders, it cannot be denied that it is rather rough on pedestrians who love the shady walk along the park as well as the wheelmen. Always these paths have been popular for parents taking children for a Sunday stroll, and in the evening they have been lovers' lanes. There are paved sidewalks for pedestrians on the other side of the street all the way and there wheelmen may not go. Those sidewalks are not shaded, however, and in summer are wholly uninviting. Some time ago it was promised by the Board of Public Improvement that crushed stone would be spread over Ocean avenue and Fort Hamilton avenue, which cover two sides of the Fark, and wheelmen are hoping that this new decision will not upset the pian. nue and Fort Hamilton avenue, which cover two sides of the Park, and wheelinen are hoping that this new decision will not upset the plan. The streets named are dirt roads, in about the same condition as they were when the Hessian troops camped at Flatbush, and not much better than the Indians left them. With a top drassing of stone like that on the cycle path they would be available to wheelinen and the congestion of the side path would probably be relieved to an extent that would make it reasonably safe for pedestrians. As matters are now, the Supreme Court judgment is apt to create a feeling on the part of pedestrians against cyclers that is in no way desirable. There is altogether too much of this on these paths now. Under a majority rule it may be only fair that cyclers should ride on the dirt paths where they outnumber pedestrians a thousand to one, but every citizen who desires to waik there overlooks the point and thinks the whole question resolves itself into one of good roads. With the improvements proposed and half the cycling traffic removed from the path there would be room for the remaining half to roil along without menace to pedestrians.

Baltimore, June 8.—About 5,000 persons saw Henry Clase of France defeat Bob McCurdy of Philadelphia in a 20-mile bicycle race at the Colosseum last right. McCurdy was substituted for Church. The Quaker was not in training, but he plugged pluckily along, and was beaten by a little over half a mile. McCurdy held the lead until the fifth mile, when Clase jumped into the lead and by the sixth mile was one lap shead. By the ninth he was two lane, and at the seventeenth mile was a half a mile. He covered the twenty miles in 41 minutes 26 4-5 seconds. John S. Johnson broke Coulter's record made at Denver, riding one-hilf mile, unpaced, in 35 3-5 seconds. Jap Eden of Holland broke Arthur Gardiner's record, riding one-half mile, unpaced, in 55 seconds. Summaries:
